Hi Dave,

Are you using the workbench? If so, you can disable this feature under
Preferences > IDL > Editor > Highlight matching brackets.

Yes Mark. I am using workbench, and as you mentioned, I disabled
that. I like the old kind of workbench.
Cheers,
Dave

I think Paul van Delst recommended this book to me,
but *well* worth reading: The Paradox of Choice,
by Barry Schwartz. :-)

Cheers,

The way I read that was:

Even though Paul van Delst recommended this book to me it is *well* worth reading.

You couldn't replace the measly "but" with an "and"?

:oD

Sorry. The fingers have a mind of their own. :-(

How about this: Paul recommended this book to me and

IT WAS TREMENDOUSLY ILLUMINATING about the role of
choice in our lives! :-)

Cheers,

David

My ego is re-inflated and once I again I need to walk sideways through doors to accommodate my
big head.

Phewph!

cheers,
