Hi all,

I need to do this, i need to compare two values and if record in the
binary file, but displays a warning and not write in the file.

My code: http://pastebin.com/KBeqf8Gi

Please see the line 39, this correct?

Thanks,

You have to give WRITEU a "file unit" to which your data should be
written. To get a file unit, you must first open a file with OPENR,
OPENW or OPENU. Don't forget to close it afterwards with FREE_LUN.
