Hi,

I am searching how to calculate the confidence level for contours. I
have the data sets like this
amp=(172,51)
days=172
ht=51
I am able to draw a contour, but how to estimate the 90% confidence
levels for above data sets.
I am looking for any simple idl code for confidence level

Thanking you,

Kishore

Not sure if it's useful, but this does the reverse operation:

http://astroconst.org/jbiu/jbiu-doc/misc/contourlevels.html
