Hi everyone,

 Please help me out in this problem

My program is like this,

ca =readfits('red_calib.fits'); size is 1024,1024,300

ec=readfits('red_ecl.fits'); size is 1024,1024

dk=readfits('darkframe.fits'); size is 1024,1024

ec3=fltarr(1024,1024,300)

till this it is runnig fine

ec2=fltarr(1024,1024,300); at this line the program shows error like

unable to allocate memory : to make array

Please do give some suggesions in this regard.

thanks

Sid
