Hi friends
I have a problem that i can not understand about this expression that i wrote the comand like this
and i found this message. INDOW,xsize=400, Ysize=350
IDL> plot,x,y,psm=4,position=[0.15,0.15,0.75,0.95],$
> XTITLE='X Locations', YTITLE='Y Locations'
message:
Keyword PSM not allowed in call to: PLOT
% Error occurred at: $MAIN$
% Execution halted at: $MAIN$
please explain me about above expression. Thank you
Best Hadi
