Would someone with IDL 8.2 please tell me what version of HDF and of HDF5 it uses? You'll see it if you do "help, /dlm". Thank you.

By the way, Chris Torrence said in the "IDL - freeing up used memory?" thread:

"We are currently upgrading our HDF5 to the latest version of the library..."

Thank you, David and Mike. Now dare I ask for the same info for IDL 8.2.3?

Here for my IDL 8.2.3:

\*\* HDF - IDL HDF support (not loaded)

Version: 4.2r8 (EOS 2.18), Build Date: MAY 3 2013, Source: Exelis  
Visual Information Solutions, Inc.

Path: C:\Program Files\Exelis\IDL82\bin\bin.x86\_64\idl\_hdf.dll

\*\* HDF5 - IDL HDF5 support (not loaded)

Version: 1.8.4, Build Date: MAY 3 2013, Source: Exelis Visual  
Information Solutions, Inc.

Path: C:\Program Files\Exelis\IDL82\bin\bin.x86\_64\idl\_hdf5.dll

Looks the same as what I gave you before to me.

Cheres,

David

This is correct. We haven't done any updates to HDF4/HDF5 in 8.2.3. We are, however, planning updates to HDF5 in 8.3.
