Hi Jim,

you can try to set tab_mode=1 in the base widget. This enables
navigation with the tab key. However you don't have much design
possibilties.

Heinz

Was tab_mode only implemented in a recent version of IDL? I am working with 6.0 and it doesn't
seem to recognise this keyword

Tab_Mode was added in IDL 6.1. Unfortunately, that doesn't seem
"recent" to me. :-(

Cheers,

David
