Hi everyone,

I'm trying to plot the values from a specific x,y grid HDF sds MOD17A3 (Gpp_1km).
I have a relatively small experience in using IDL, but I'm willing to new ways to explore my data.

Thank you.

Brent

It's really hard to know what you are looking for here. Maybe you want something like this:

http://www.idlcoyote.com/map_tips/eosgrid.php

Cheers,

David
