Hi,  
Is there a way to plot a dashed histogram using cgHistoplot? I couldn't find a way to change the linestyle.

---

The linestyle of what?

Cheers,

David

I mean the linestyle of the histogram bar itself. Is there a way to change it?

Thanks

"The histogram bar itself." Does this mean the outline of the histogram bar? Not the stuff inside the bar, right?

Yes, I mean the outline of the histogram.

OK, here is a version with an OL\_STYLE keyword that will allow you to change the line style of the histogram bars:

<http://www.idlcoyote.com/programs/cghistoplot.pro>

Use it like this:

cgHistoplot, cgDemoData(7), OL\_Style=2

Contributions greatly accepted at the Coyote Store:

<http://www.idlcoyote.com/coyotestore>

Cheers,

David
