Subject: pv-wave HISTOGRAM
Posted by Jamie Kettleborough on Mon, 13 Nov 1995 08:00:00 GMT

Hello,

sorry if this has come up before.

Does anyone have pv-wave code to give
the reverse index array for a histogram. I'm looking for something like the
array returned by the idl routine HISTOGRAM, the pv-wave routine, unfortunately
does not have the relevant keyword...

Please e-mail replies
