For me, the change of directories with ftpCommand does not work. I do not use IDLnetURL with FTP, so could not tell you if this is a bug or if it is a behavior of the FTP server.

I think it is a bug. It does not work with a local FTP site either.

```
url = 'ftp://ftp.eos.sr.unh.edu/pub/outgoing/CWSmith'
ftp = idlneturl()
% Loaded DLM: URL.
ftp -> SetProperty, URL_SCHEME='ftp', URL_HOST='ftp.eos.sr.unh.edu',
URL_PATH='pub/outgoing/CWSmith'
```

```
print, ftp -> GetFTPDirList(/SHORT)
res = ftp -> ftpCommand('CWD RBSP')
print, ftp -> GetFTPDirList(/SHORT)
```
