Subject: Re: Can't find rpcidl.a library Posted by anton on Thu, 21 Dec 1995 08:00:00 GMT View Forum Message <> Reply to Message

Hi, Natasha!

I had to compile my own library under SunOS 4.1.2 for IDL 3.x. They have sources in directiory (in my configuration, of course): /u/rsi/idl_4/external/rpc.

So look in \$YOUR_IDL_DIR/external/rpc.

I've tried rpc some time ago and found that (for version 3.x) even some examples doesn't work.

Good luck, Anton
