```
I gave the code like the following
res = mpfitfun('model',x,y,err,p,PARINFO=par)
print,res
fname='/home/meegle_jade/data1.dat'
OPENW,1,fname
PRINTF,res
CLOSE,1
```

But it's showing error. Infact I wanted to write the output 'res' to data1.dat.Can you please help me out?

```

You need to specify the logical unit your writing to, e.g., PRINTF,1,res
