
Subject: graphics title - bigger brackets

Hello,

when making a plot like

```
g=plot([0.:2.:01]*!pi,sin([0.:2.:01]*!pi),title='field $[Mx/cm^2]$')
```

the exponent goes above the brackets in the title.

Is there a way to make the brackets larger, e.g. the equivalent to the
LaTex $\left[Mx/cm^2\right]$?

Thanks, Markus
