Subject: Problem with stereographic projection

The following command produces a polar stereographic plot with
the upper left quadrant missing. What am I doing wrong?

map_set,90.0,0.0,/stereo,/isot,/cont,/grid,$
  limit=[20.0,-90.0,20.0,180.0,20.0,90.0,20.0,0.0]

I want to be able to specify the edges of the map projection.
Any advice would be appreciated.

(I am using IDL 4.0.1 on an SGI.)

Cheers,
Liam.
