I'm looking for a compilation of time_test results on various platforms that is more current than the one included in the on-line help files. Is there someone out there who maintains such a list? If not, perhaps we can generate one fairly quickly by posting the summary results for our favorite platform.

Also, has anyone taken the time to generate a larger version of time_test that may be more appropriate for today's machines, e.g. by including big 2D FFTs, etc.?

TIA,
Jeff Pedelty
