Subject: clip art TIFF readers
Posted by murthy_j on Sun, 08 Nov 1992 22:55:04 GMT

I have a scanned little-endian TIFF clip art file which I want to read into
IDL. The TIFF_READ program appears to only read files with 8 bits per pixel.
Does anyone have a program to read TIFF files of only a single bit per pixel?

Thanks
Jayant Murthy (murthy@pha.jhu.edu)
