Does somebody know if IDL 4.0.1 runs under Dec Unix version 4.0 ?
(local distributor knows nothing and recommends of course no unix
upgrade from Dec unix 3.xx to 4)

Thanks

who knows.... but I know from CREASO:

IDL 5.0 will ONLY run on Dec Unix Version 4.0 or higher...

Hendrik

PS : i am frightend of an update from 3.2g to 4.0b too!
