Subject: Where is LEGO plot in IDL Posted by at913 on Tue, 09 Feb 1993 18:35:55 GMT

View Forum Message <> Reply to Message

Once upon a time, I accidentaly came upon an IDL newsletter, which described LEGO type surface plots, i.e. the plots looked like stacks of LEGO blocks.

We are running IDL version 2.2.2 (have problems with 2.4 on our system), and I cannont find it there.

Is it a new plotting routine or a DOC_LIBRARY program, or an option to SURFACE?

Please e-mail info, as I do not read this newsgroup regularly.

Thanx
