
Subject: Where is LEGO plot in IDL

Once upon a time, I accidentally came upon an IDL newsletter, which described LEGO type surface plots, i.e. the plots looked like stacks of LEGO blocks.

We are running IDL version 2.2.2 (have problems with 2.4 on our system), and I cannot find it there.

Is it a new plotting routine or a DOC_LIBRARY program, or an option to SURFACE?

Please e-mail info, as I do not read this newsgroup regularly.

Thanx
