Subject: Contents/Explanation of !map system variable Posted by daffer on Thu, 01 May 1997 07:00:00 GMT

View Forum Message <> Reply to Message

Hello all;

Does anyone know where to find an explicit explanation of each of the elements of the !map structure, or does anyone have the explanation? I can't find it in the online/printed docs and some of the elements don't seem to be accessed in map\_set, map\_patch, ... et al.

RTFMs welcome with cit. thanks whd
