I received my package for Alpha/VMS about a a week ago and installed it without much trouble.

: would be _really_ nice is if I could just download it from the

: RSI site. Of course, it'd be even nicer if it was free too :)

I thought that this was (or will be shortly) possible too. You would of course have to have a valid support contract, but then RSI will issue you the appropriate license.dat file via email.

I called last week about ftp access, and they said 2-4 weeks. Give them a ring next week to see if it's available.
