this is a little off the subject....

I am purchasing Lab View as a data acquisition and mechanical test control package software. I would like to know if anybody knows of a newsgroup that deals with that specific package.

If not,

Does anybody have a good idea regarding how to go about finding one.

There are quite a few users of LabView in comp.sys.mac.scitech, so if you don't find anything more specific you could try asking there.

Here is information on a helpful LabVIEW list, which has an associated archive.

To post to the list, mail to <info-labview@pica.army.mil>. Administrative issues such as SUBSCRIPTION and DELETION REQUESTS, as well as any mailer problems, SHOULD BE ADDRESSED TO <info-labview-REQUEST@pica.army.mil>, not to info-labview or my personal account.

Hope this helps.
