\$\$ FREE TO START - \$000s PER MONTH \$\$

NO CHARGE TO JOIN

If you're reading this, then you may be looking for a business that's different, and really works and that's so NEW it's only just being promoted by e-mail. You can run it entirely on line, in your spare or full time and it works anywhere throughout the world.

I am very committed into earning a Great 2nd Income from a business that has been running very successfully for the past few years, until recently just by using regular mail.

The business was adapted and made available to others in July 1997 by UK based Gemini Publishing International to operate purely by e-mail (although it can still be run by regular mail as well). What you will see here represents an incredible legal money making business that anyone can run from their kitchen table. You will receive full instructions - it's so easy to work even the kids could do it. Plus I'm always available to give help and answer your questions.

I have been earning substantial profits from regular mail but the earnings from e-mail promotions will make this look like small change! Plus the savings on printing and postage!

My present monthly income is over \$5000 and growing by the week. I confidently expect my annual earnings to exceed \$60,000 in my first year, purely from regular mail within the UK. Just think what this will rise to with the power of e-mail advertising on a global scale?

This is a genuine home business, not a chain letter, money game, telecom scheme or any of the multitude of dubious 'business' offers that come through your mailbox. And to prove my sincerity I make NO CHARGE to join me in my business until you find your first customer - yes there is a product to sell and it's something of value to everyone, particularly newcomers, involved in any home business.

If you want more information and follow my success to make it your own, reply to mop13851@mail.telepac.pt insert "SHOWME" in the subject box and put your full name and e-mail address in the message body.

I will send you a file by e-mail attachment so please specify whether you want this as a plain text document (*.txt) or if you prefer it as Html (*.html) or Microsoft Word (*.doc).

With my warmest greetings

Vitor Manuel
