'Snakes' are a method of contour following used in image processing
and computer vision.

There's some Matlab code at:

<http://www.interval.com/~malcolm/pubs.html>

No, I don't have a clue! Snakes?! I was thinking about snakes today as I was walking around the foothills looking for birds. How they would enter into programming is completely beyond me. :-(

Cheers,

David

P.S. Erich, help us out here!

So at least you seem to know what he's talking about?!
Please enlighten us (once again :-))

Peter
