
Subject: center dialog boxes

Hi all,

I vaguely remember this topic was up earlier this year: How can I center a DIALOG_PICKFILE on the screen (an IBM AIX system). I did save David's reply about centering your own dialog boxes, but that does not work for DIALOG_PICKFILE. Wasn't there some solution like setting some cryptic variable in the startup file or some environment variable in .cshrc or something in .Xdefault ??? Please help!

Thanks,
Martin.
