Subject: ROI stats?

Posted by Kristine Goodwin on Thu, 05 Nov 1998 08:00:00 GMT

Hi everyone! I'm new at this and I need some help. After I have defined
my Region of Interest in IDL, I would like to compute the Stats. I know
that
you can compute the Stats off the Region of Interest Controls. However,
I would like to add more to it. I would like to be able to display the
Band, the Min, the Max, the Mean, the Stdev, and a new one. This new one
would be SNR (which is mean/stdev). So basically how do you edit Stats
(or can you)?

Any help would be greatly appreciated.

Thank you,
Kristine Goodwin
