Subject: Unknown Error

Posted by Bertrand Revenaz on Mon, 18 Jan 1999 08:00:00 GMT

Hello,

I'm new to both PV-wave and IDL but I have to translate Wave files to
idle. Nothing fancy just some graphing files to plot the results of a
model. No interface or anything, it just makes the images. When I try to
run the files under IDL I get the following message

%prgram code area full

I can't find any reference to it in any of the manuals. Can anybody help
me...
