Hello

I am interested in running IDL routines on LZW compressed TIFF images.
Does anybody know of a way to do this? This is the error message

```
% READ_TIFF: READ_TIFF: Images must be un-compressed  
% Error occurred at: READ_TIFF      268  
/usr/local/rsi/idl_5.1/lib/read_tiff.pro
```

Thanks for your help
