Hi

I am trying to find out some good sites related to IDL on the net. I know
of

www.rsinc.com
www.dfanning.com
http://scv.bu.edu/SCV/Tutorials/IDL/idl_webtut.html#INTRO

These form a good introduction to a beginner like me. Does aybody know
of some other good tutorials on the web. Reading the manuals is a daunting task
but I am doing it. Such coures, I have found, speed-up the learning process.

TIA

GPULib is at http://www.txcorp.com/home/gpulib now. People interested in
FastDL (TaskDL and mpiDL) should contact me directly.
